HAS anyone seen AGUINALDO'S CO gratulations to his great and good friend, Mister BRYAN?

THE LEDGER nominates TEDDY ROOSEVELT for President in 1904. He can beat BRYAN worse than McKinley beat him this year.

OF one thing Mr. BRYAN ought to be fully convinced by this time—that the people of the United States don't want him for their President.

MR. BRYAN has issued a fout-line double-column "official" statement spurning a seat in the United States Senate, in which he uses the personal pronoun just six times. BRYAN is a big I-ke.

The election is never over until the votes are counted, and in the case of Congressman it is never over until they are counted honestly. An irresponsible state machine can't monkey with Uncle Sam's affairs.

FOR President in 1904-AGUINALDO BRYAN.
For Vice-President—
BRYAN AGUINALDO,

Down with Old Gloryl Swim out, O'Grady!

Ir was hardly necessary for Mister BRYAN to decline the United States Senatorship. That was settled by the people of Nebraska when they elected a Republican Legislature last Tues-day. BRYAN must be an English-man. It takes him a long time to see the point of a joke.

THE transcript of the record in the case of CALEN POWERS against the Commonwealth has been filed in the office of the Clerk of the Court of Appeals, and, Chief Justice HAZELERGO fixed Friday, November 23, to hear arguments in the case. It will be disposed of before the close of this serm of the Court; and it is highly probable that JIM HOWARD will also be "disposed of" before Judge O'HEAR takes his seat on the Appellate Bench.

The freight rate cutting among the up-river packets is still going on. It is said a cut in passenger rates will be the next surprise sprung by one of the four interes may justing on the Moongashels. There is an enormous freight business the packets. The trade is increasing daily and has gained wonderfully during the past year.

FOUR years ago McKinley's majority of the popular vote over BRYAN was 588,924. This year it looks like it might be two or three million.

PENNSULVANIA gave McKinley a go down theriver to Nine Mile, makin anjority of 288,000; and it looks as if Ohio was trying to catch up with Pennsylvania and Indiana was trying to catch up with Ohio.

Royal Baking Powder

Makes The Food More Healthful

Royal Baking Powder possesses peculiar qualities not found in other leavening agents, which arise from the superior fitness, purity

and healthfulness of its ingredients. Royal Baking Powder leavens the food perfectly by its own inherent power without changing or impairing any of the elements of the flour.

Thus the hot-breads, hot-rolls and muffins, and the delicious hot griddle-cakes raised by the Royal Baking Powder are wholesome and digestible, and may be eaten without distress, even by persons of delicate digestion.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.
